REACHING NEW HEIGHTS

Starting from the bottom isn't easy, but we all have to start somewhere. The first step for us was kindergarten. This was a nice easy start to something that would end up being a long and tough challenge. Back then we were given a nap, now we would love a nap in school. It hasn't been easy, but through the years we have managed to learn a lot from our teachers and our peers. Just remember that anything is possible as long as you work hard and have a positive attitude.

We're getting higher!

We finally made it!

Starting from the bottom.

THE YEAR IN REVIEW

The 1987-88 school year has been a year to remember. We had a winning football season, the Lady Tigers went to the playoffs, and the basketball and wrestling teams have shown us that Tigers are the tops. Academically we've done well, our hard work and our spirit has been great. Lets keep up that "Tiger Spirit" and stay on top in all the things we do.

MAMA TIGERS

The Mama Tigers are a special bunch of women who volunteer their time for the support of SMSH in many different ways. The work they do is irreplaceable and things would be a lot harder without their help. Their efforts are appreciated and we would like to say "THANKS MAMAS."

Principals

One night on T.V. I saw an armless guitarist, Torry who used his instrument while he sang, entertaining an appreciative audience of Hollywood celebrities. I thought, what courage, what determination, what a lesson to us all in pursuing what we need and want in life.

"Reaching New Heights" is the theme of your yearbook. It can be a meaningful and challenging thought if you pursue your goals realizing that you have shortcomings and obstacles to overcome, but also talents and gifts that can make you uniquely worthwhile.

Reach for New Heights as you move through high school let Torry, the armless guitarist, inspire you and you will surprise yourself with your success and accomplishments.

Larry Roy

The students of SMSH are being introduced as Freshmen and challenged until the completion of their Senior year with a career oriented schedule. These students are taught by devoted teachers to be competitive and goal oriented. They are frequently reminded that the top awards and rewards are usually received by the students who have been the high achievers in the academic, athletic, or other talent competitions.

Odell Trhan

Having spent the better part of a semester at SMSH, I have made several observations. I find the student body to be extremely friendly and polite. I have made several acquaintances among the student body, some through repeated detentions, others through smiles in the hallways. In both cases the attitudes presented are typical teenage behavior. Typical to me is not the horror stories one reads in the papers. Typical is polite, responsible (sometimes overexuberant but seldom malicious) young adults that I have grown to know and admire.

The faculty of SMSH has welcomed me and made me feel like a part of the school. For that, I will always be grateful. I have renewed old friendships and I am on the verge of solidifying new ones.

"Reaching New Heights" is always an appropriate theme for a school. It appears that the value of education has finally been recognized by the general public. We must recognize that education is a life long process, but it is something that we must work for it to be value.

In closing, the words of Robert Browning exemplify our theme — Ah, but a man's reach should exceed his grasp or what's a heaven for.

DEDICATION

This year we are dedicating the yearbook to two special people. Mr. Hunt has been a very big part of SMSH. The years of hard work he put in at SMSH are appreciated. The faculty, staff, present and past students will all sorely miss his contribution to SMSH.

DEDICATION

Mrs. "B" has been a big part of SMSH. This year we dedicate the yearbook to her. She has been a unique asset to SMSH and she will be impossible to replace. The students, faculty, and past students of SMSH would like to thank Mrs. "B" for all of the many years she put in at SMSH. We'll miss her.

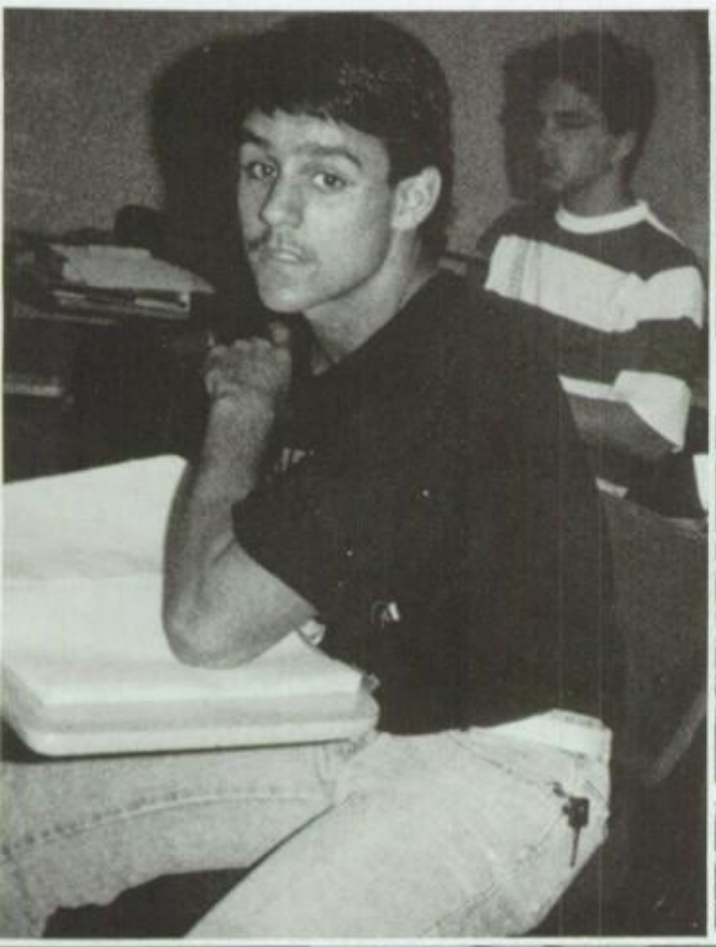
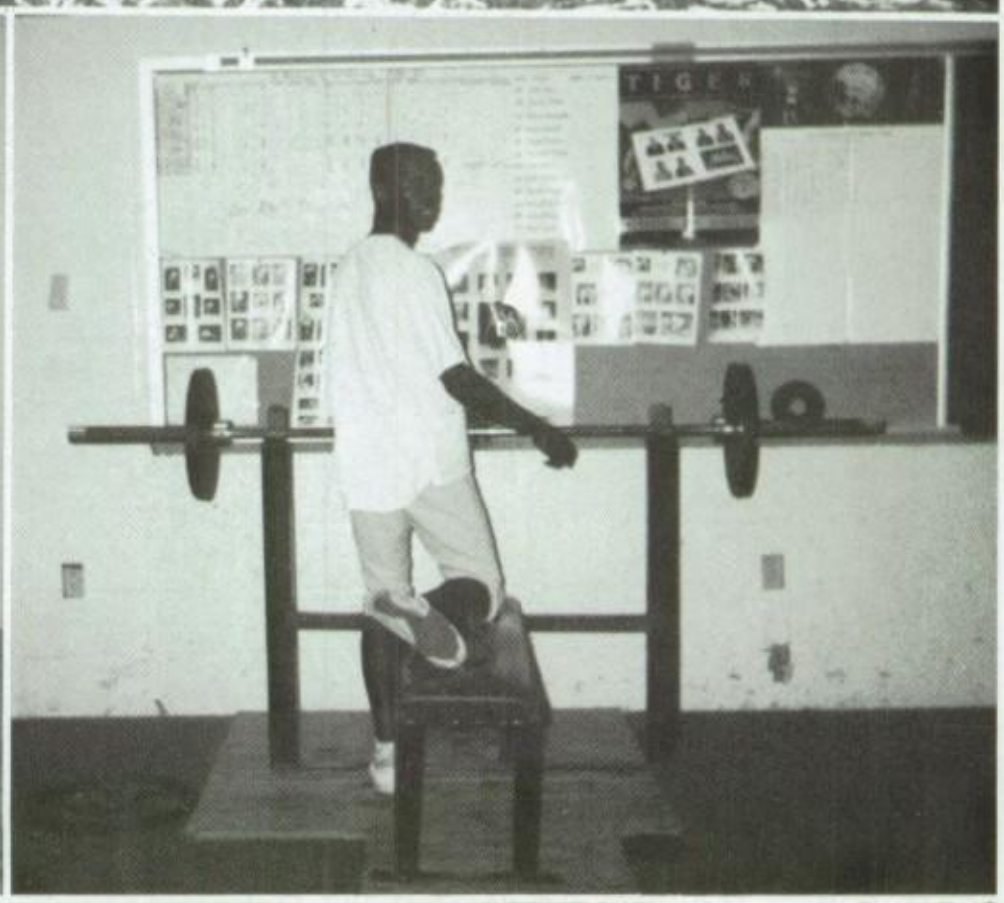
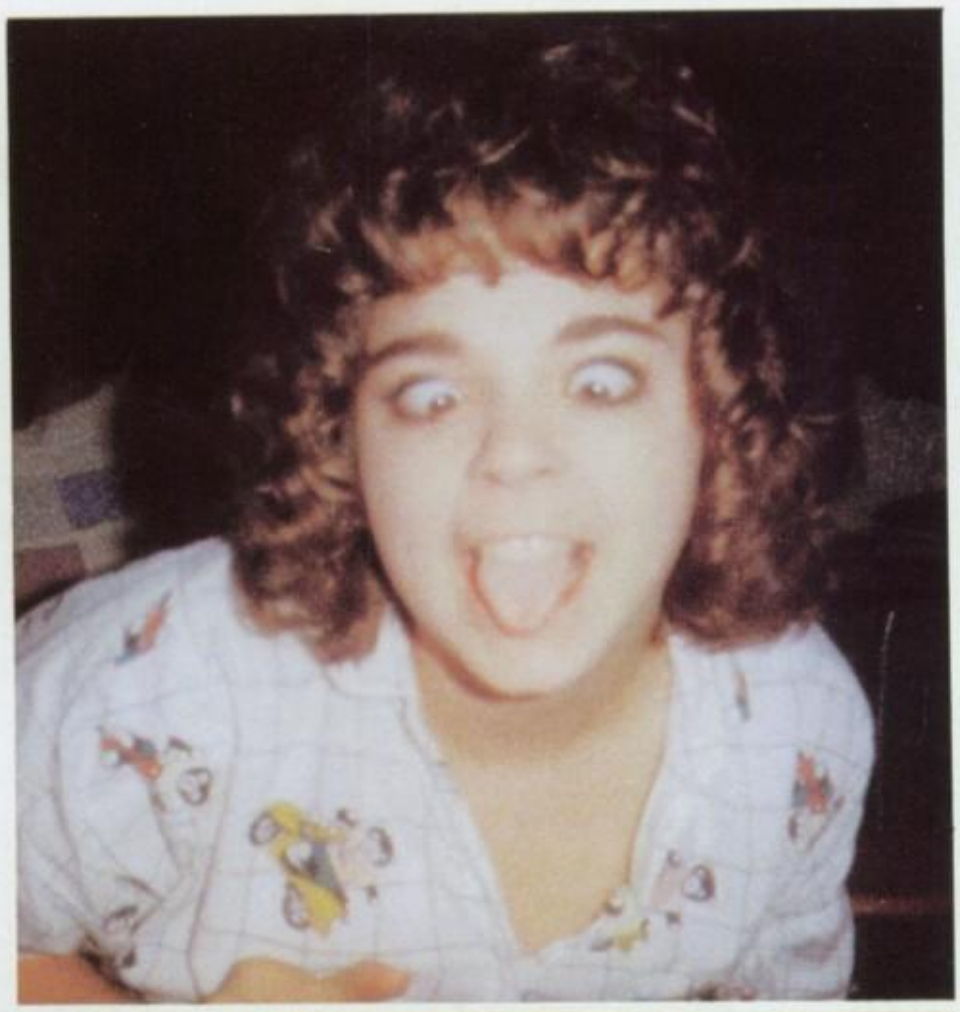
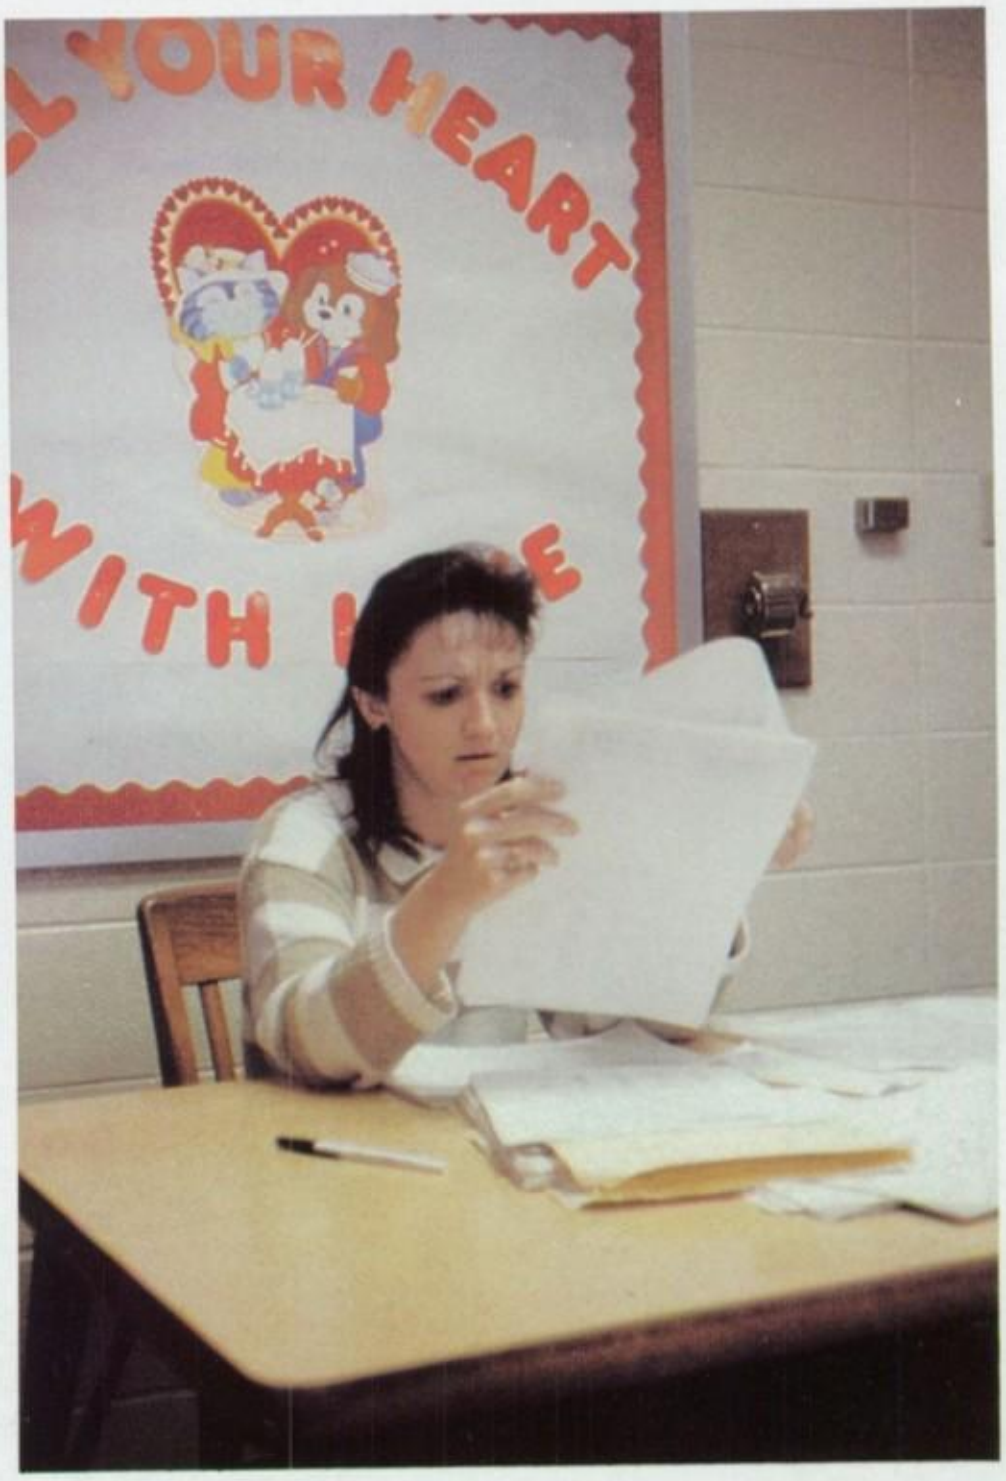
Twisted sisters

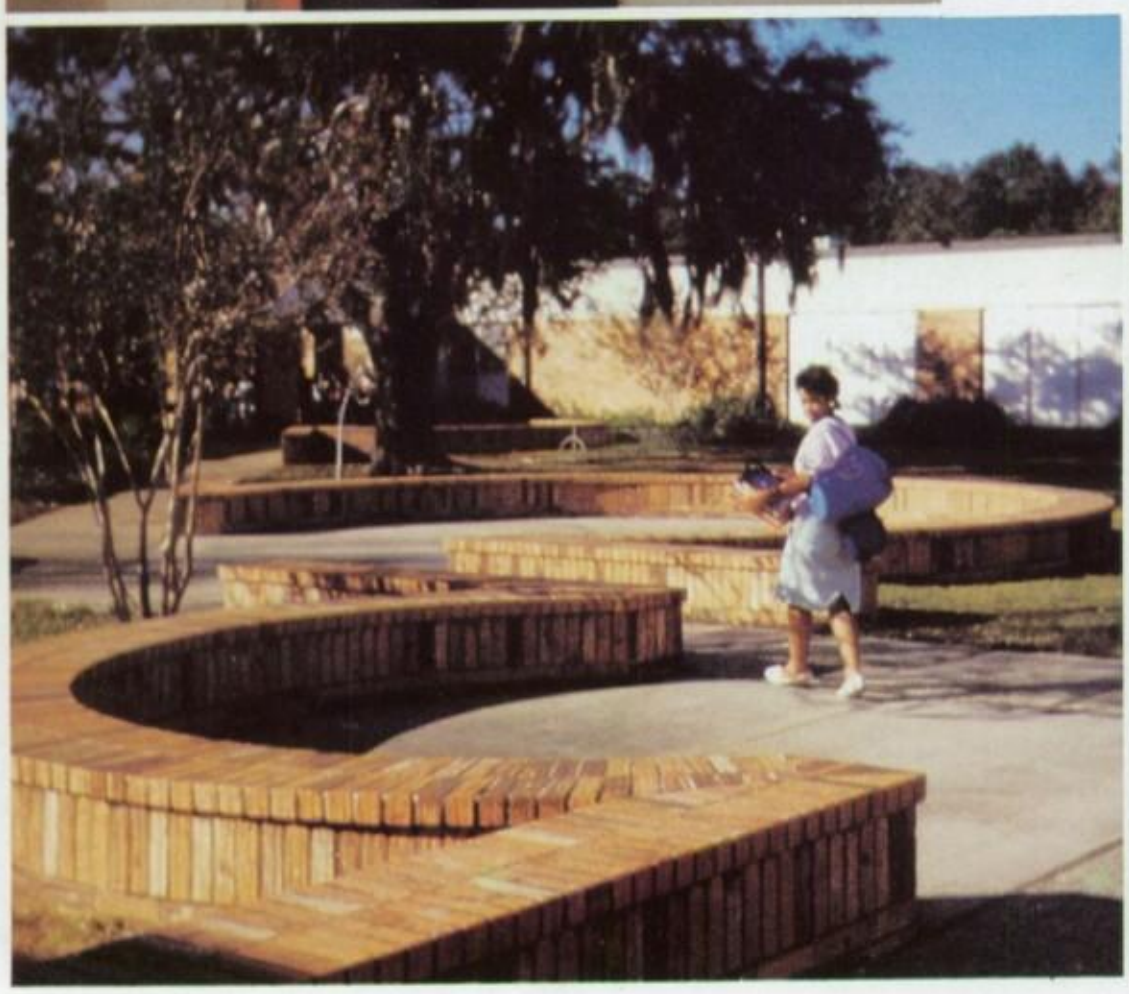


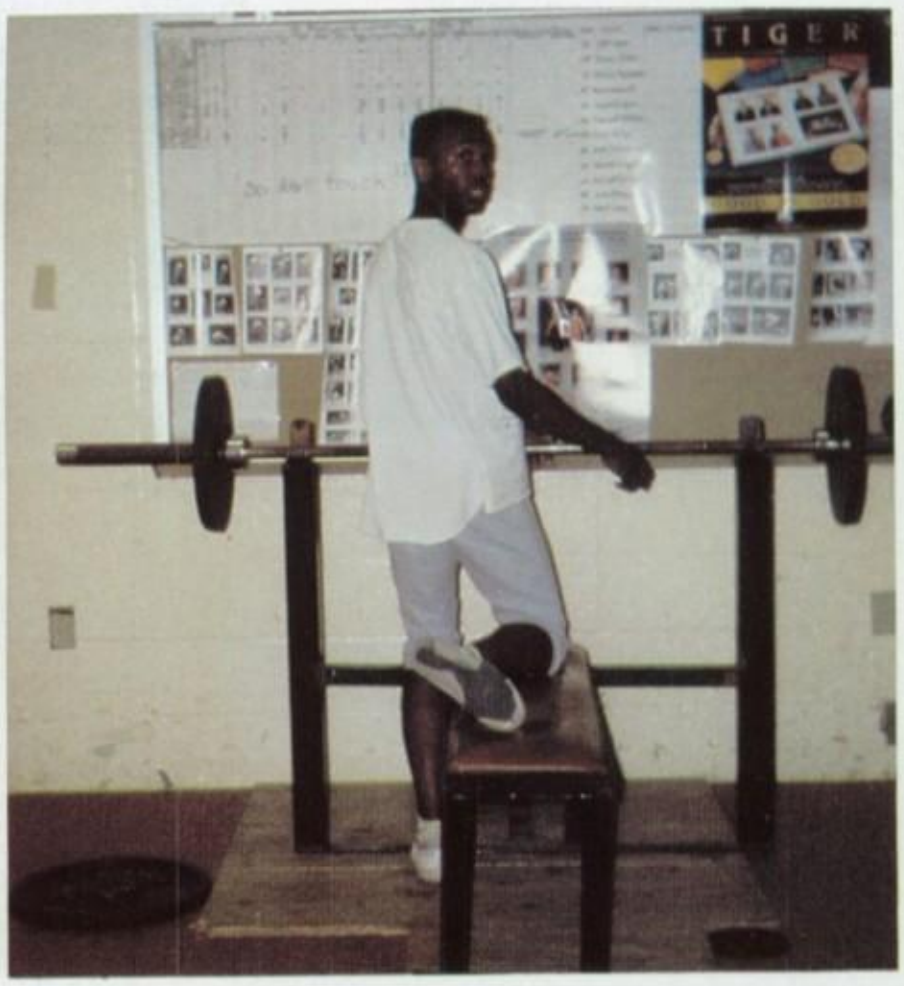


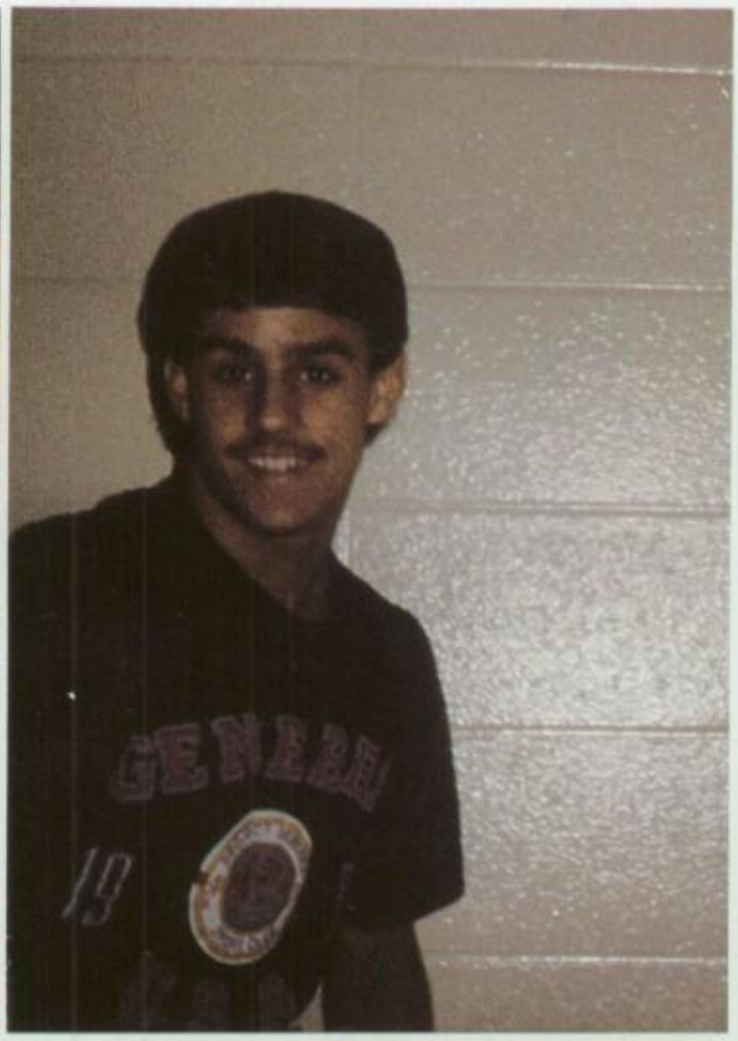


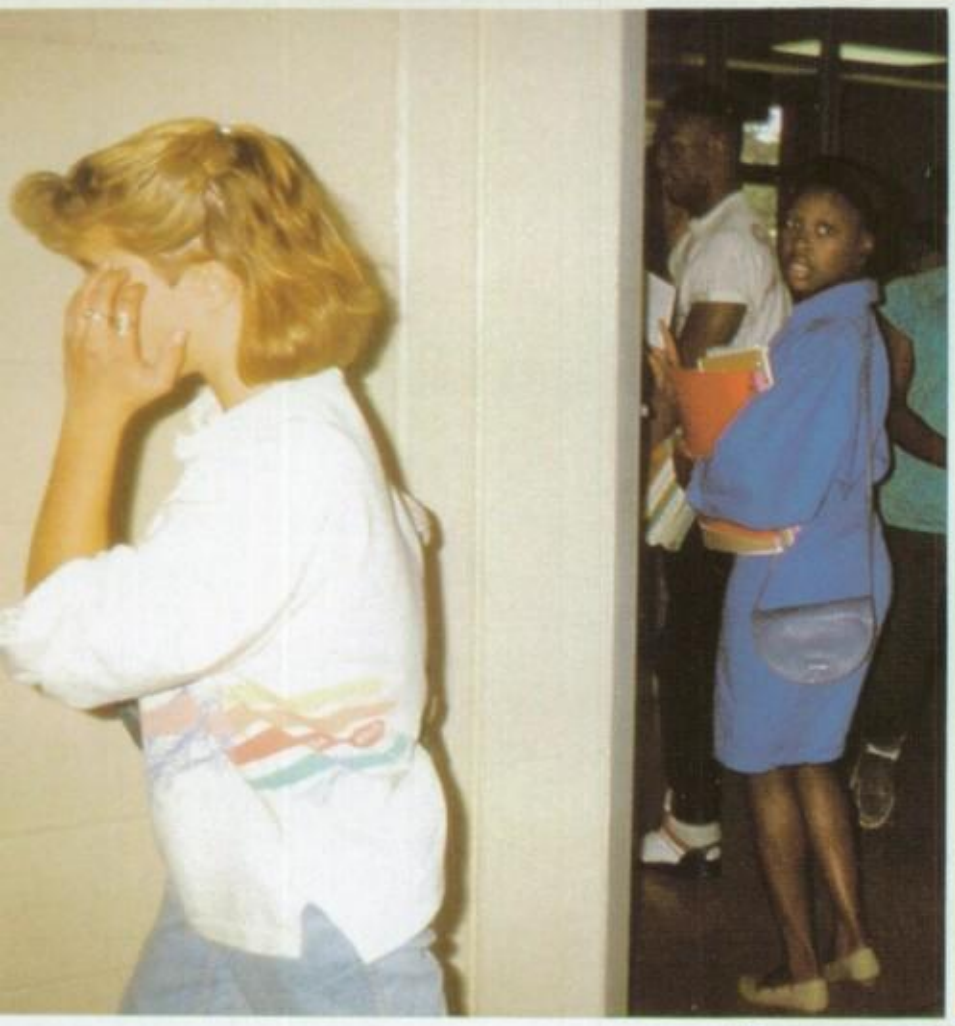


At first we were a little crazy . . . lost in paper work . . . some ran to class . . . others walked (*they *will be there when* I *get there right?!). Some how it all 'worked' out OK!

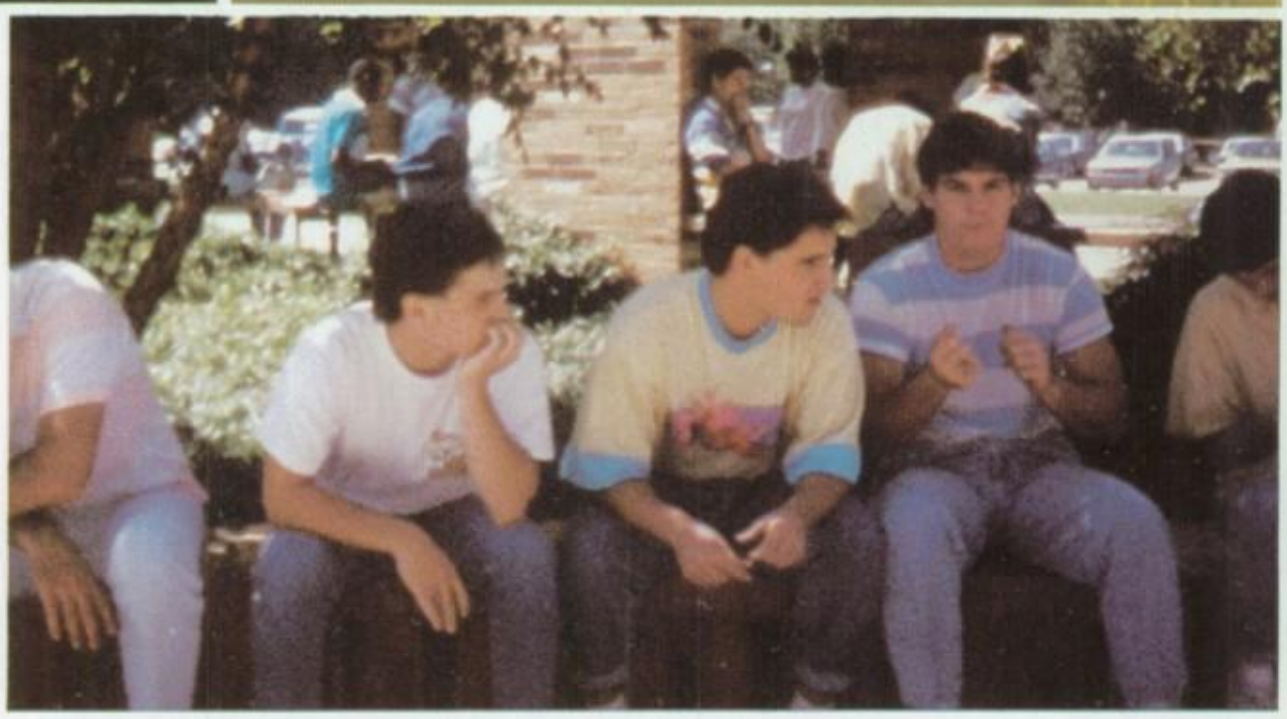




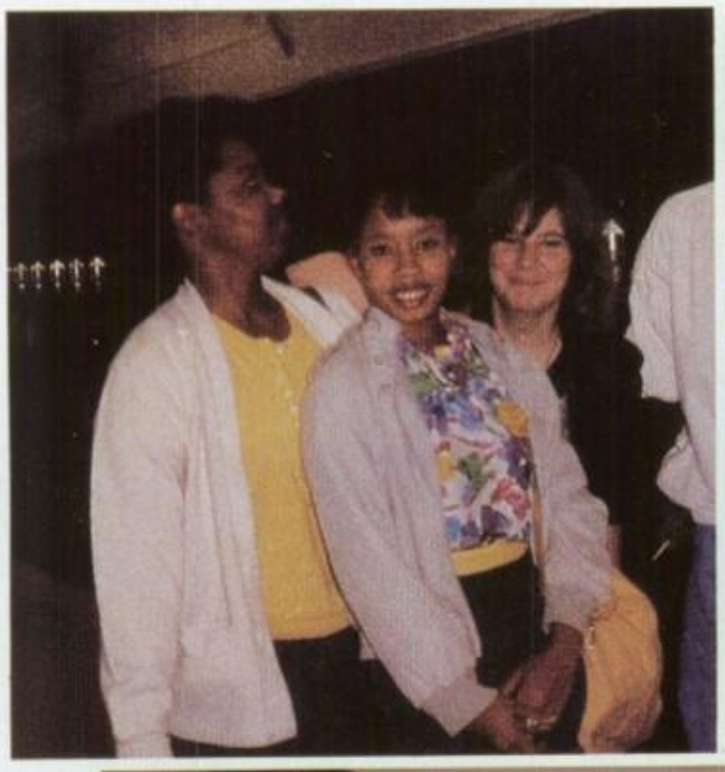




Then people were coming and going . . . hiding from someone . . . others, seeking someone . . . and through it all some just watched!



We started with ninth . . . worked our way through . . . tugged here . . . tucked there . . . and went into the world with a new understanding.



But, in the final push . . . we could only study hard . . . think positive . . . kick-back . . . and smile!!!

TIGER PRIDE

The fighting's now over
The good times are through
We played with our hearts
Our feelings were true
We cherish the season and
game of the year
But now we are proud and
we walk without fear
We don't hold a grudge
Cause we played our best
And the teams that we played
We put to the test
We play for the *VILLE*
Which some only dream
No one was the hero
We played as a TEAM
We are the MIGHTY TIGERS!!
We hold our heads high
Together we'll stand
As time passes by

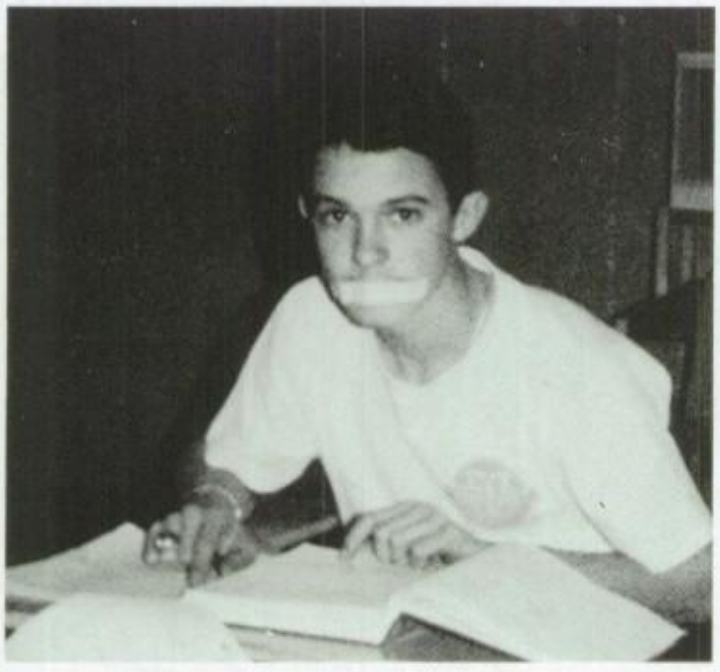
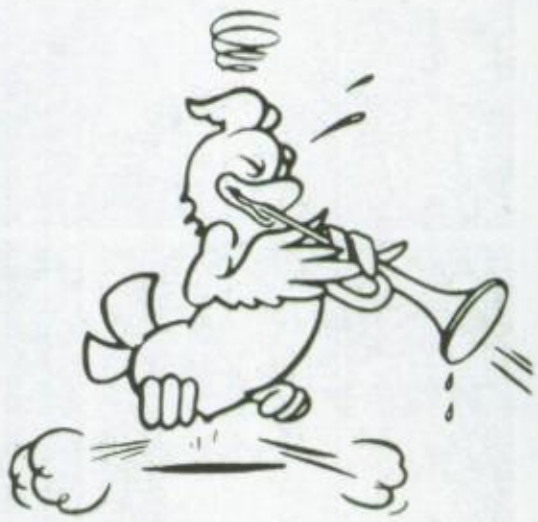
Sometimes I'm as quiet as snowflakes falling to the ground.



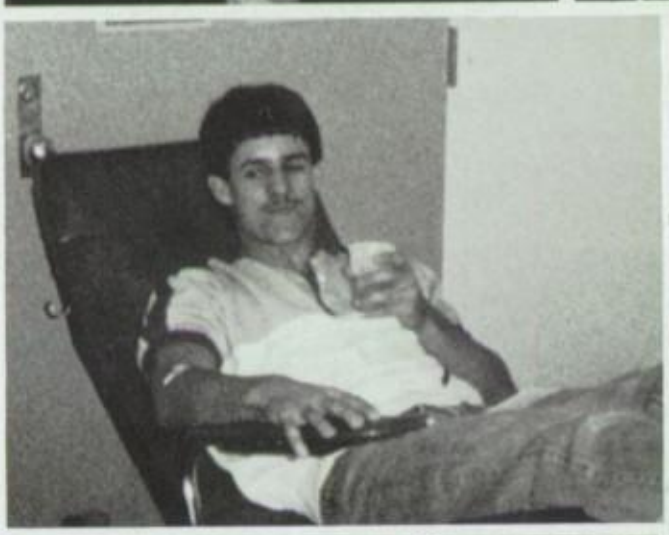
Sometimes I'm as noisy as a band playing a tune.

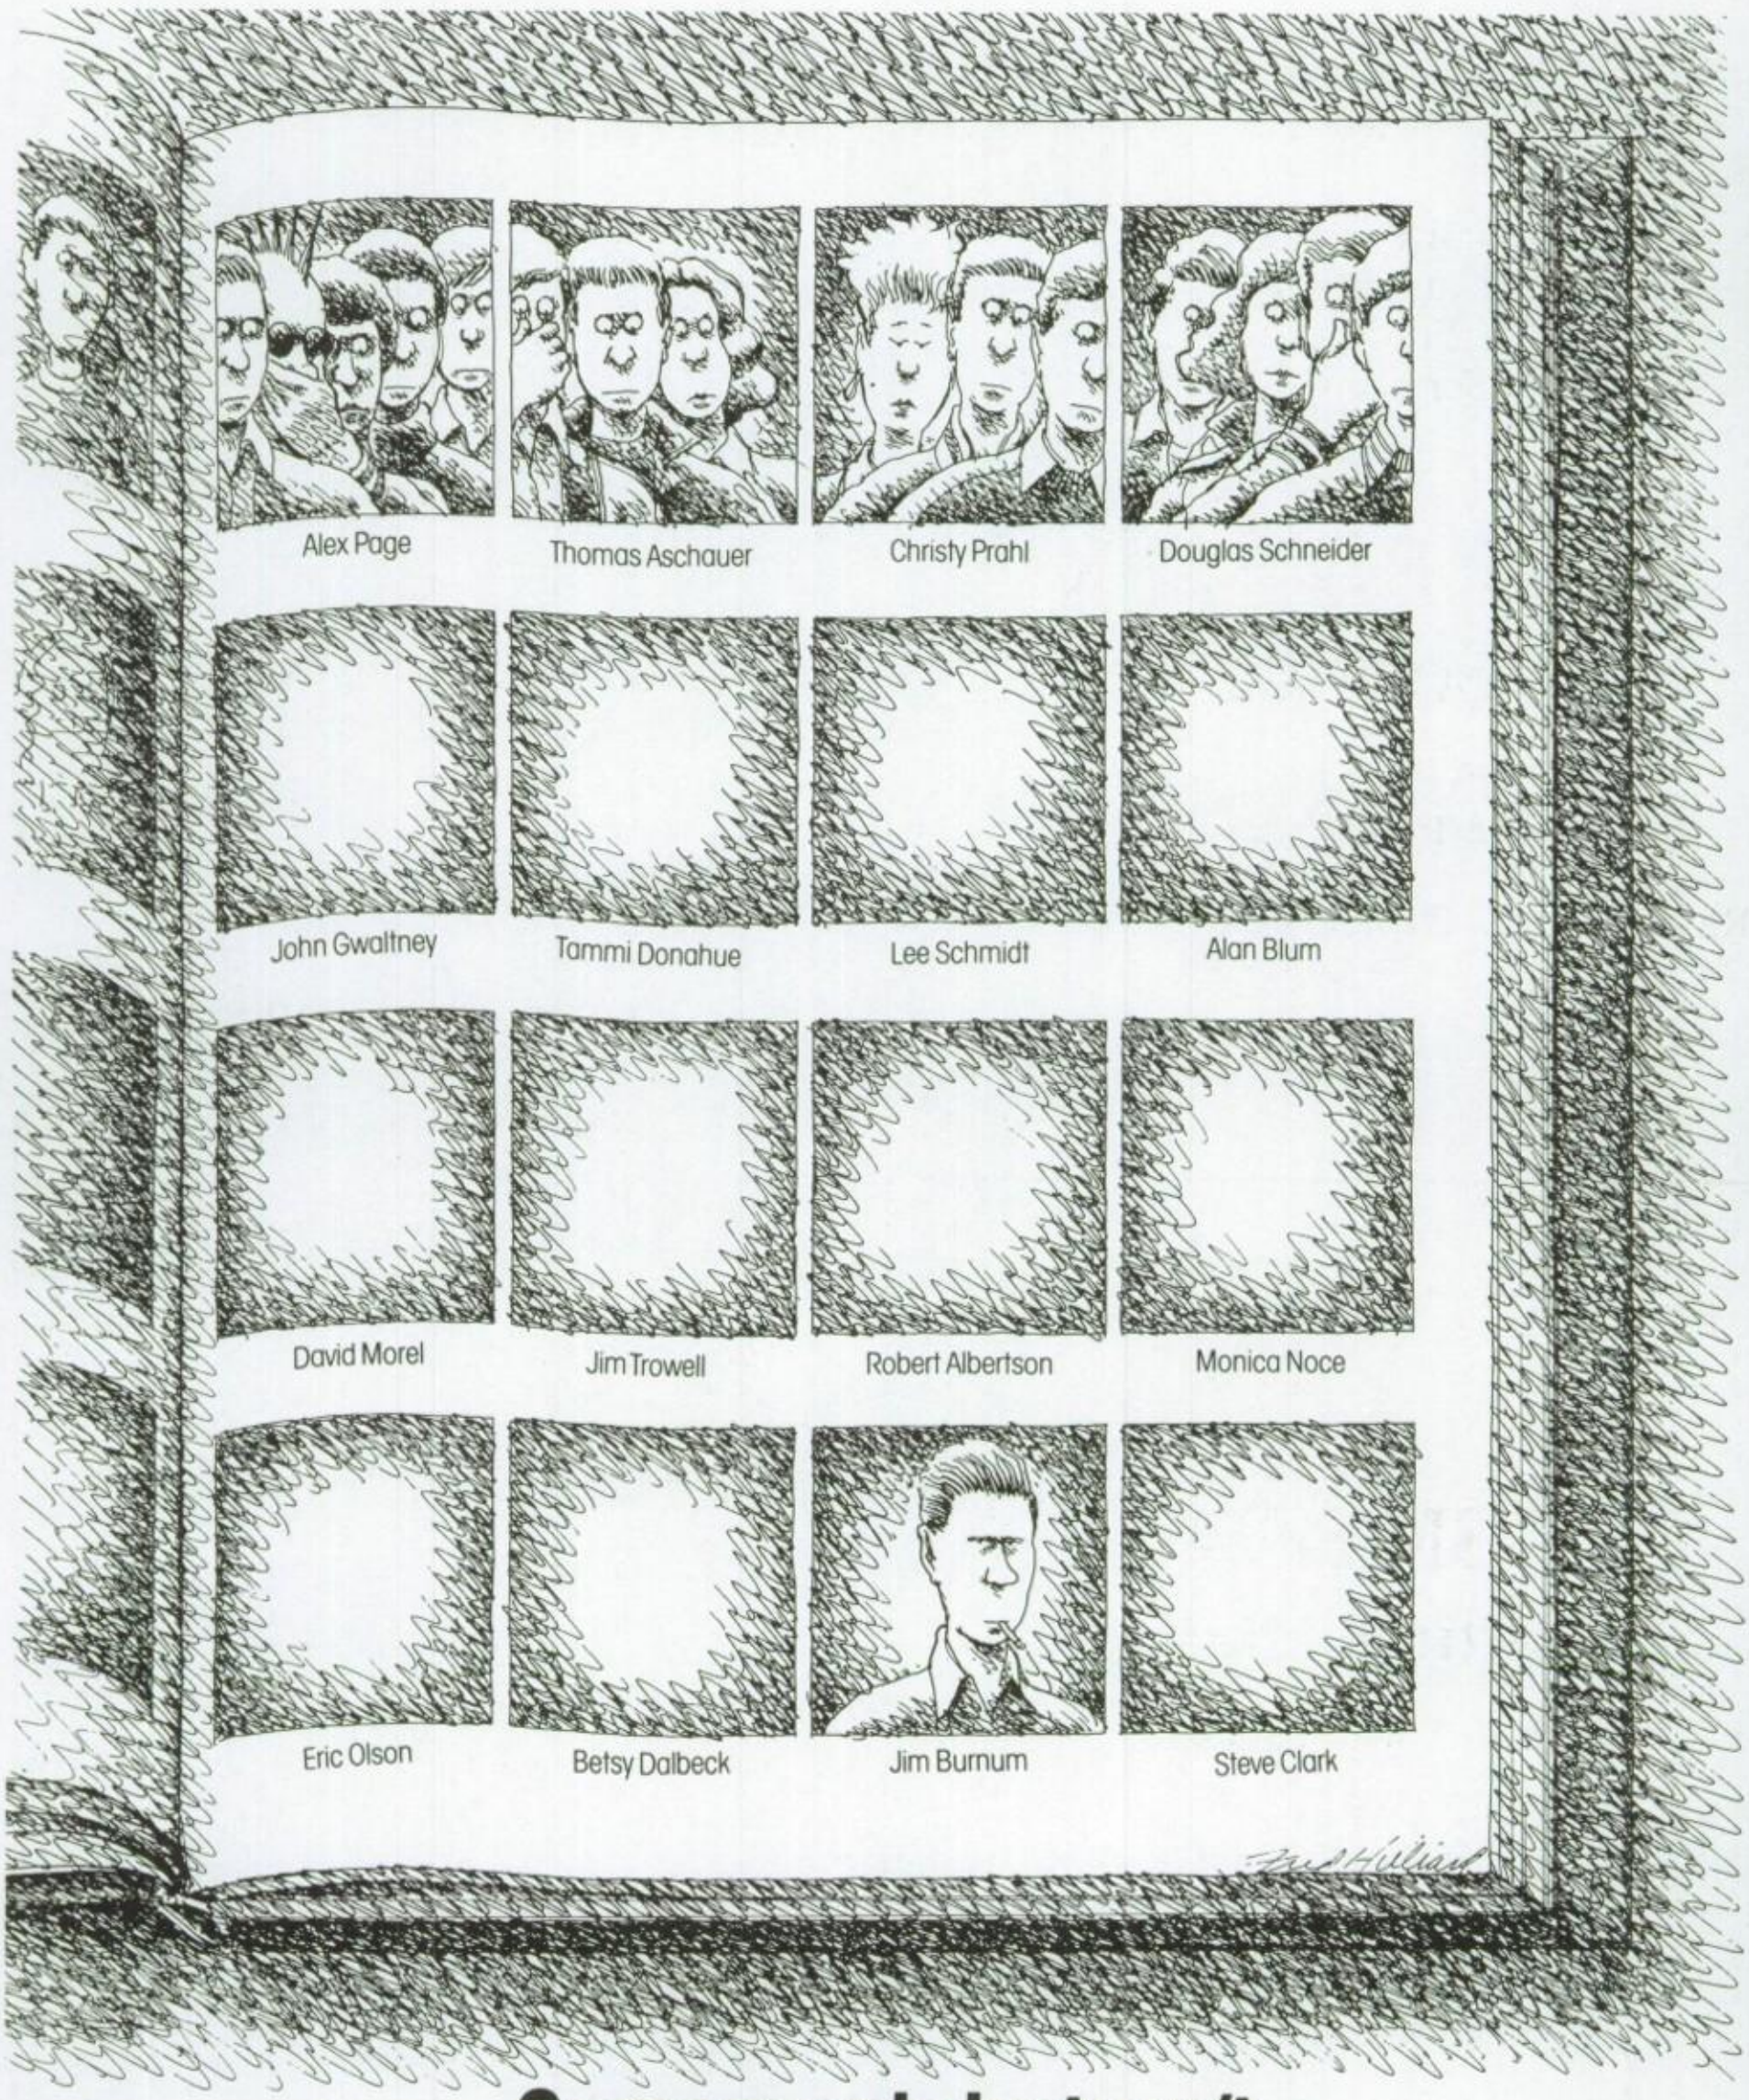
Sometimes I'm as lazy as a moth sleeping in a cocoon.



Sometimes I'm as busy as a buzzing bee.

And all the time I try to let people see the real me.





Some people just can't picture themselves with a smoker.
